SUMMARY

Product Manager with 10+ years of experience across EdTech, e-commerce, and telecom, moving from operations into product leadership. Led the strategy, roadmap, and delivery of Teacher Hub and an Arabic AI authoring platform at Nahdet Misr, and now leads product strategy and feature development for mobile and web applications as a freelancer.

PROFESSIONAL EXPERIENCE

Product Manager
Jul 2026 - Present

FREELANCE | Cairo

- Lead product strategy, user experience, operations SOPs, and feature enhancement for three mobile and web applications across EdTech and digital products.
- Define product backlogs, functional requirements, prioritization frameworks, and milestone roadmaps in partnership with operations and engineering teams.
- Establish agile delivery workflows and cross-functional feedback loops to accelerate release cycles and align product iterations with business KPIs.
- Build applications using Vibe Coding: one application is currently in launch, and a second is upcoming and has not launched yet.

Product Manager
Jun 2025 - Jun 2026

NAHDET MISR PUBLISHING GROUP | Cairo

- **Teacher Hub:** Led product strategy, vision, roadmap, and delivery across iOS and Android, translating teacher pain points and business needs into features, workflows, and BRDs. Search for Teacher Hub to find the app.
- Reached **8,000 active users within the first month** through teacher engagement, product communication, and onboarding, including launch webinars and teacher training.
- Coordinated the integration of Al-Adwaa digital assets - semester videos, question banks, and summaries - so content was prepared and delivered consistently across all Nahdet Misr products.
- **AI Authoring Tool (NM-AI):** Developed the product strategy and end-to-end BRDs for an Arabic AI-powered content authoring platform, with content generation and assessment workflows based on Bloom's Taxonomy covering educational content, summaries, and question generation.
- Defined the database structure, content generation logic, and initial UI wireframes, and worked with Development, SAP, Content, Sales, and Marketing teams to align requirements and support implementation within existing systems.

Digital Operations Lead
Dec 2023 - Jun 2025

NAHDET MISR PUBLISHING GROUP | Cairo

- Reduced operating costs for Al-Adwaa Center by **50%** while supporting a **200% increase in student volume** through process improvements and automation.
- Built internal tools using AppSheet, Google Sheets, and Excel to automate daily tasks, organize workflows, and track team performance.
- Managed and mentored two teams - Digital Operations and Student Engagement - ensuring smooth execution of content, session delivery, and student support activities.

Operations Manager
Jul 2021 - Oct 2023

DEALTIO E-COMMERCE | Cairo

- Built ERP workflows for 5 departments and 30 employees, including task timelines and automatic task assignment, improving operational efficiency by **50%**.
- Improved operational processes and workflows, contributing to a **50% increase in profitability**, and reduced Average Handling Time (AHT) from **10 minutes to 3 minutes**.
- Managed 2 teams with 11 operations staff; trained and coached employees, contributing to a **60% increase in team productivity**, and introduced monthly KPI reviews.

Operations Manager (Part-time)
Oct 2022 - Dec 2023

IBTKAR & TATWEER FOR CONSTRUCTIONS | Cairo

- Renegotiated supplier contracts and optimized procurement cycles, reducing raw material and logistical costs by **30% quarterly**.
- Streamlined workflows between on-site teams and headquarters, improving project delivery timelines by **20%**, and implemented an inventory tracking system that reduced material waste by **10%**.

Service Expert
Aug 2018 - Jul 2021

VODAFONE EGYPT | Cairo

- Optimized core processes by analyzing weekly performance statistics, and resolved complex technical issues across 9 different systems/applications.

Store Sales Advisor
Sep 2016 - Aug 2018

VODAFONE EGYPT | Cairo

- Consistently exceeded sales targets, leading to promotion to the Service Expert role.

EARLY CAREER

Store Manager, CompuMe (2014-2016): Managed P&L, stock, and staff.

Technical Support, Alpha Egypt for Computer Systems (2012-2014).
